

Down Under

Hot Water Extraction Rug and Carpet Shampoo

Highly Concentrated - Economical
Professional Strength Formulation
Leaves No Residue

Down Under is a concentrated blend of cleaning agents formulated to professionally clean carpet. It performs exceptionally well even in “high traffic” areas of offices, motels, apartments and food service establishments.

Down Under contains powerful wetting agents that break the bond between soil and carpet fibers and suspend insoluble soils in the shortest possible time. This is a very important in the operation of hot water extraction shampoo machines.
